PR24 Business Plan – redaction policy

This document sets out the redaction policy that we have followed in producing the published version of our PR24 business plan.

Consistent with Ofwat's guidance, we have kept redactions to a minimum. Redactions in the public version of our business plan are primarily limited to material that is contrary to the interests of security, in accordance with Defra guidance to water companies on the release of security sensitive information. This includes information about the location and details of key assets and systems.

In addition, we have redacted a small amount of material that we consider to be commercially sensitive (including where we are bound by third party agreements).

The full set of documents with redactions are listed below.

Table 1 – List of redactions

Document	Reference	Reasoning
WSX02	Section 1.11	Security
WSX03	Section 3.10.1	Security
WSX09	Sections A6, A8, A9, A10	Commercial confidentiality
